

Educational Program Series - 4000

LIBRARY SERVICES

Chemeketa library services exist as a major resource for the college and the community.

The college will endeavor to meet individual needs in a variety of ways:

1. Provide a wide range of learning materials in support of the college's learning goals.
2. Provide materials that will cover several levels of instruction and student ability.
3. Provide enrichment material for community education programs.
4. Provide reference service and facilitate access to material not available locally.
5. Provide Information Literacy instruction to students across the college curriculum.
6. Provide appropriate technological facilities to ensure access to information and enhance the learning experience.
7. Cooperate with other organizations including other member libraries of the Chemeketa Cooperative Regional Library Service for more effective utilization of resources.
